

**POWER CUT?
CALL 105**

THERE'S A NEW NUMBER TO CALL IF YOU HAVE A POWER CUT.

**CALL 105 TO REPORT OR GET INFORMATION
ABOUT A POWER CUT IN YOUR AREA.**

It will put you through to your local electricity network operator – the company that manages the cables, power lines and substations that deliver electricity into homes and businesses in your area.

105 is just one of the ways that you can contact your electricity network operator. You can also contact them by phone or via their website, and most network operators are on social media too.

105 is a free service for people in England, Scotland and Wales.

You can call 105 no matter who you choose to buy electricity from.

You can also call 105 if you spot damage to electricity power lines and substations that could put you, or someone else, in danger. If there's a serious immediate risk, call the emergency services too.

**POWER CUT?
