<i>Grade</i>	<i>Salary</i>	<i>Closing Date</i>
Technical Level B	£44,497 - £60,850	10 May 2021

Position

An exciting opportunity has arisen for two Operational Delivery Engineer's (EHV SAP's) to join our Major Projects team, the engine room of Northern Powergrid's capital programme, where we specialise in project, programme and contract management – safely delivering large and complex projects on the network to time, cost and quality.

At Northern Powergrid, our vision is to be the best energy company in serving our 3.9 million homes, whilst delivering a sustainable energy solution. As a dedicated Operational Delivery Engineer EHV you will be an integral part of achieving this, while always striving to keep our customers power flowing. You will be responsible for the delivery of EHV projects, including operational work, for Major Projects.

We're excited to hear you if you have a passion for the company and a desire to succeed. Apply now and we'll be in touch

Key Responsibilities

The successful candidate will be responsible for

- The delivery of EHV major projects and programmes of work
- HV and EHV operations on the network
- Site safety management
- Quality assurance of construction activities

Key Competencies

- Detailed knowledge of safety procedures, specifically CDM regulations, DSR & OPM
- Knowledge of engineering requirements for EHV power systems
- Ability to manage contractors to ensure engineering standards are applied
- Ability to undertake plant and equipment commissioning
- Ability to become Senior Authorised to 132kV
- Ability to plan, control and co-ordinate short to medium term project resources

Qualifications & Attributes

Essential Qualifications and Experience

- HNC in Electrical Engineering
- HV Operational experience

Desirable Qualifications and Experience

- EHV Operational experience
- NEBOSH qualification
- SAP experience

Additional Information
