

POWERING YOUR CAREER

**Estimator
Role Profile**

Estimator

Location: Castleford

Directorate: Performance and Planning

Job Ref No: R4691

Do you want to help power your career and be part of an evolving energy industry?

An exciting opportunity has arisen for an enthusiastic Estimator to join our Connections Input Services Team.

The energy industry is advancing with investment in smart technology innovation and Northern Powergrid, as the company responsible for powering everyday life for 8 million customers across 3.9 million homes and businesses in the North East, Yorkshire and northern Lincolnshire, is at the forefront of delivering a power network that meets the region's needs, now and in the future.

Our vision is to be the best energy company in serving our 3.9 million homes, whilst delivering a sustainable energy solution. As an Estimator you will be an integral part of achieving this, while always striving to keep our customers' power flowing. You will be responsible for ensuring compliance of SLC15 and the promotion of Competition in Connections whilst ensuring ICP Small Works designs conform to the Standard Design Rules and also providing technical support to the CIS team and the CUS Operations Manager..

Along with a competitive salary between £22,447 and £24,817 we also offer great benefits such as;

- Enrolment into our pension scheme
- 25 days holiday

We're excited to hear from candidates with a passion for our company and the industry and a desire to succeed. [Apply now](#) and we'll be in touch.

Key Responsibilities

The successful candidate will:

- Assessment of accepted SLC15 designs to establish the requirements for quality assurance audits
- The conversion of Section 16 dual quotations within QPID where an ICP has been appointed to deliver the contestable works rather than Northern Powergrid.
- Progressing and handling of ICP project call off requests to Northern Powergrid delivery and other internal departments
- Requesting and management of MPAN requests for ICP projects
- The issuing and monitoring of pre-drafted connection and adoption agreements for internal and external signatures
- Providing day to day technical support to the CIS administration team
- Working closely alongside ICPs and IDNOs to build strong customer relationships
- Working closely alongside internal design engineers, project engineers and safety auditors
- Approval/Inspection of ICP submissions for Small Works designs that conform to the SDRs
- Ensuring day to day compliance with SLC15 and Competition in Connections Code of Practice
