

**POWERING  
YOUR CAREER**

**R4363 Safety Engineer  
Role Profile**

Do you want to help power your career and be part of an evolving energy industry?

An exciting opportunity has arisen for an enthusiastic Safety Engineer to join our Health, Safety and Training Team.

The energy industry is advancing with investment in smart technology innovation and Northern Powergrid, as the company responsible for powering everyday life for 8 million customers across 3.9 million homes and businesses in the Northeast, Yorkshire and northern Lincolnshire, is at the forefront of delivering a power network that meets the region's needs, now and in the future.

Our vision is to be the best energy company in serving our 3.9 million homes, whilst delivering a sustainable energy solution. As a dedicated Safety Engineer you will be an integral part of achieving this, while always striving to keep our customers' power flowing. You will be supporting the Health and Safety Delivery Manager by providing competent health and safety advice to Northern Powergrid's leaders and frontline workers.

Along with a competitive salary of £45,943 to £62,828 we also offer great benefits such as;

- Enrolment into our pension scheme
- 25 days holiday

We're excited to hear from candidates with a passion for our company and the industry and a desire to succeed. [Apply now](#) and we'll be in touch.

### **Key Responsibilities**

The successful candidate will:

- Maintain a working knowledge of existing, new and emerging health and safety legislation
- Identify and evaluate health and safety risks arising out of or in connection with the companies undertakings
- Identify and promote adoption of HSE Approved codes of practice and guidance, and industry best practice
- Assist the Safety Management Team in monitoring the effectiveness of the companies health and safety management system and policies
- Undertake assigned audits of the companies health and safety management system
- Deliver individual priorities or projects that are assigned from the annual Safety and Health Improvement Plan
- Where an assigned priority or project requires financial control then ensure that all relevant financial controls and reporting are in place to ensure delivery within budget

## **Key Competencies**

- Ability to work as an individual and motivate yourself without supervision whilst being an effective support member of a small team
- Ability to provide exceptional internal and external customer service
- To be able to deal effectively and efficiently with any enquiries and the collation of supporting information for mitigating actions taken
- Have the ability to co-ordinate and communicate effectively at all levels of knowledge and experience with customers, service providers and Northern Powergrid Technical/Engineering staff with regard to technical and safety related issues
- Have the aptitude to deliver tasks, projects and achieve results
- Have a proven record and aptitude for planning and organising and leading collaborative working

## **Qualifications and Attributes**

### **Essential Qualifications and Experience**

- Full UK Driving Licence
- NEBOSH Level 6 National Diploma in Occupational Health & Safety (or equivalent) – will consider working towards
- Experience of working in a similar role

### **Desirable Qualifications and Experience**

- HNC in electrical engineering
