

POWERING YOUR CAREER

**Works Co-ordinator
Role Profile**

Position

An exciting opportunity has arisen for an enthusiastic individual to join our North Yorkshire Region within Field Operations, located at our Scarborough office.

At Northern Powergrid, our vision is to be the best energy company in serving our 3.9 million homes, whilst delivering a sustainable energy solution. As a dedicated Works Co-ordinator you will be an integral part of achieving this, while always striving to keep our customers power flowing. This is a key role within our Regional Operations team for a Works Co-ordinator to deliver a mix of low and high voltage, overhead and underground predominantly fault repairs.

Along with a competitive salary of up to £42,412 we also offer great benefits such as;

- Enrolment into our pension scheme
- 25 days holiday
- Additional payments associated with out of hours standby participation.
- Participation in personal transport provision

Key Responsibilities

- Effective management and delivery of allocated Lv and Hv projects to time cost, quality and safety standards
- Provide accurate and timely reports on progress and status of allocated projects
- Updating and working with key IT systems
- Prioritize workload & effective decision making in demanding situations.
- Interface with Customers as well as internal and external resources to develop and deliver projects
- Electrical Operational role and responsibilities, setting staff to work to under safe systems of work

Competencies

- Team working
- Customer Service / Contractor liaison
- Planning and organising
- Safety, Health, Environment knowledge and application of all Company and statutory requirements
- Programme and Project Management

Qualifications and Attributes

Essential Qualifications and Experience

- ONC (level 3) in an Electrical Engineering discipline
- Experience and knowledge of operational electrical practices on low voltage power distribution systems
- UK full driving licence

Desirable Qualifications and Experience

- HNC in Electrical Engineering
- NRASWA Qualification
- Distribution Network Operator Operational Codes on the LV / system.
