**EHV New Connections
Commercial Engineer**

Commercial Engineer – EHV New Connections

Location: Yorkshire

Directorate: Commercial

Job Ref No: R5633

Do you want to help power your career and be part of an evolving energy industry?

The energy industry is advancing with investment in smart technology innovation and Northern Powergrid, as the company responsible for powering everyday life for 8 million customers across 3.9 million homes and businesses in the Northeast, Yorkshire and northern Lincolnshire, is at the forefront of delivering a power network that meets the region's needs, now and in the future.

Our vision is to be the best energy company in serving our 3.9 million homes, whilst delivering a sustainable energy solution.

We deliver a cost-effective, efficient and personalised service for all our connections customers, with smarter, more flexible solutions that enable the connection of low carbon technologies on to our network and support of the transition to net zero.

An exciting opportunity has arisen for an EHV New Connections Commercial Engineer to join our Connections Team.

A commercial & customer facing role, you will work closely with the engineering teams across our business to ensure the successful delivery of the commercial aspects of providing new connections. The successful candidate will thrive on establishing exceptional long-term relationships with customers at a senior level, helping them connect large factories and power stations to our extra high voltage networks. You will be a key enabler in helping our customers transition to a low carbon economy.

Along with a competitive salary of up to £62,828 we also offer great benefits such as;

- Enrolment into our pension scheme
- 25 days holiday

The successful candidate will perform a critical role in supporting the move towards a net zero carbon economy through the deployment of flexible connection solutions that utilise new and emerging technologies and commercial arrangements.
